Project Report

4 ADVANTAGES & DISADVANTAGE

ADVANTAGES:

Learnt many technical things that I never seen before.

DISADVANTAGES:

There are many confusions and chaos created when we pursuing the project.

5 APPLICATIONS

- Git hub
- Git repo
- Trailblazer

6 CONCLUSION

All different branches of planning go into event management, including various types of sourcing, designing, regulation checks, and on-site management. In event management, you could be in the process of creating a conference, a product launch, an internal sales kick-off, or even a wedding. Really, any event that requires considerable planning and execution is event management.

FUTURE SCOPE

In the longer term, we expect Salesforce to integrate data

science and big data capabilities to its Service Cloud and Marketing Cloud.

This would result in automated customer service tasks (via Service Cloud) and would let marketers leverage data for predictive and targeted marketing.
